BULBS

FOR FALL PLANTING

NARCISSUS

Giant Poets Varieties

These Narcissi, the prettiest and hardiest of all the varieties, are very easily grown either in the house in pots or outdoors. Planted during September or October, outdoors, with a light covering of manure or hay during the Winter, will give splendid results the following Spring; if for house culture, plant in well prepared soil, store away in cool cellar until they show signs of growth, then place in well lighted situation near the window. Six bulbs placed in a 4-in. pot, or 12 bulbs in a 6-in. pot will give the best results.

Price: Mother Bulbs, 25c. per doz., $1.50 per 100, $10.00 per 1000.

Delivered anywhere in the United States

STAIGREEN LAWN SEED

This is a mixture of the hardiest, dwarfest growing Grass Seed, and is the result of ten years' constant trial and study to get a mixture of seed that is properly balanced to make a lawn that will withstand our extreme changes in temperature.

The majority of the mixtures sent out are at their best only part of the season; this is caused by the use of either too few varieties, or the use of too much of some and not enough of other varieties in the mixture.

STAIGREEN LAWN SEED is properly balanced, and only the purest, cleanest and best seeds are used.

THE VERY BEST MIXTURE FOR FALL SOWING.

SELECTED STOCKS WINTER WHEAT

McKinley (Beardless). An excellent producer, large grain, white and hardy. Quart 20c., by mail 35c., peck 75c., bushel $2.75, 10 bushels $25.00.

Red Wonder (Beardless). An enormous yielder, and the best red wheat for all locations. Quart 20c., by mail 35c.; peck 75c., bushel $2.75., 10 bushels $25.00.

Winter Fife. Considered one of the best for milling, early, hardy and very productive. Quart 20c., by mail 35c.; peck 65c., bushel $2.25, 10 bushels $20.00.

Gold Coin (Beardless). A very popular wheat that the increasing demand for the seed would indicate is a most satisfactory variety over a large extent of territory. It is unusually productive, having yielded over 60 bushels per acre—while 50 and over is not unusual—and even on large acreages it seldom runs under 40 bushels per acre. Quart 20c., by mail 35c.; peck 65c., bushel $2.25, 10 bushels or over $2.10 per bushel.

Mammoth White Winter Rye

Noted wherever tried for its productiveness both in grain and straw, the excellent quality of bread made from the flour, and its ability to yield heavy crops with but little or no manure. Awarded First Prize at American Institute Fair, New York City, 1896 and 1897; First Prize at several New York State Fairs; First Prize at Dutchess County Fair; First Prize at St. Louis, Mo., State Fair; First Prize of $10 at the Great Tennessee Centennial and International Exposition, Nashville, 1897; First Prize at the Massachusetts State Grange Fair; First Prize at the Vermont State Fair, Burlington. Quart 20c., by mail 35c.; peck 65c., bushel $2.15, 10 bushels or over $2.00 per bushel.

For price and description, see page 13

FOR THE Garden, Conservatory and Window Garden

Bulbous plants are among the showiest of our garden favorites, and with little care and following the cultural instructions the growing of bulbs can be made a pleasure.

Beginners have an impression that there are many difficulties to overcome in the management of bulbs, in order to have them produce their flowers to perfection, while in reality no other plants succeed as well, under all circumstances, as the different classes of bulbs and tuberous-rooted plants, with as simple and little care as bulbs require.

There are a few necessary points to be considered, and these will be found in the various cultural instructions, which, if you follow them closely, will remove the supposed difficulties.

The growing of bulbs, other than the charms their flowers possess, has many advantages over that of any other class of flowering plants; among others, and a very great one, is that many of them produce their flowers in very early spring, at a season when few other plants are in blossom.

At this season, in a sheltered, sunny spot, a few clumps of Snowdrops, Crocus, Scillas, will present a mass of color, in graceful forms, while the snow yet lingers in shaded places; before these are gone the Hyacinths refresh us with their grateful fragrance; these are soon followed by the Narcissus and Early Tulips, and all before vegetation is fairly started. In rapid succession follow the gorgeous Parrot Tulips, Crown Imperials, and before these are gone the Lilies commence their long succession of bloom. Interspersed with these is a host of other bulbs, equally valuable for their flowers, but whose names are rarely mentioned.

How to Grow Hyacinths Outdoors.

For the open border but one condition is absolutely necessary, viz., they must be protected against frost. Although Hyacinths are classed with the hardy bulbs, they are by no means such, and where the bulbs are cultivated for purposes of sale the ground is so thoroughly mulched that the frost rarely, if ever, touches the bulbs

In planting the Hyacinth, no matter what the nature of the soil may be, make it deep, and work in liberal quantities of well-rotted manure; if it is a heavy loam the bulbs should not be covered more than two inches; if in a light sandy soil, cover them fully four inches. Upon the approach of frost, cover the beds with newly fallen leaves, to the depth of six inches; this covering should be extended at least eighteen inches beyond the bed on all sides, and then kept in place by Evergreen boughs, brush or pieces of boards. Thus protected, the Hyacinth will be among the first plants to put in an appearance above ground in spring.

No further work will be required for the perfect development of the flower. Bulbs should be planted from 4 to 6 inches deep and about 6 inches apart.

Round Bed of S. & W. Special Bedding Hyacinths

Our S. & W. Special Bedding and Forcing Hyacinths.

The bulbs under this heading are of a much larger size than those put in ordinary mixtures; in fact, most of these average as large as those often sent out as "First Size Named" by some dealers. They are of the same age as the first size fancy named Hyacinths offered by us, from which they are the second selection. They will produce grand spikes of bloom, and the different sorts, as offered below, all being of one shade of color and all blooming at one time, render them of great value for forcing or bedding out, especially in designs, enabling one to secure the exact color effect desired, which is a great advantage over mixed reds, mixed blues, etc., at but a slight advance in price.

A Box of French Roman Hyacinths

PAN HYACINTHS

(Sometimes called Dutch Romans)

This method of growing Hyacinths for Winter flowering in the house has given the most satisfactory results. A number of florists used this method for creating something new in the line of an Easter display with the result that there was a much greater demand than supply, owing to the beautiful display the Hyacinths in pans make. The secret of acquiring success is simply the following: Plant only one kind of Hyacinth in one pan, in order to have them all bloom at once, and to have them all the same shade. The various sorts of Hyacinths invariably grow different from one another, and if planted together, the result will turn out accordingly. The following varieties of pan Hyacinths are the best known sorts for this mode of growing, and if by planting 10 to 12 bulbs of either of the twelve varieties mentioned in a pan 8 to 9 inches in diameter and following the directions of planting Hyacinths in pots, the most satisfactory results will be obtained.

In ordering bulbs for this purpose, be sure to mention **Pan Hyacinths.**

ROMAN HYACINTHS

Make splendid plants for the window garden, grown in whatever device may be desirable. They should be treated in all respects like the other classes, only that they come into flower much earlier, and should, for first flowers, be brought in by the 15th of November; by so doing, they will give their flowers in perfection by Christmas.

The great beauty of this class of Hyacinths is their profusion of flowers, each bulb giving from three to six spikes, according to the size and strength of bulb. The flowers are smaller than those of the Dutch Hyacinths, but more graceful. The bulbs being small, three can be put in a 5-inch pot.

Bed of Single Early Tulips

SINGLE EARLY TULIPS

Tulips are such universal favorites that it is scarcely necessary to dwell upon their merits here. Their ease of culture, combined with beauty of form and gorgeous coloring, renders them the most popular bulbs grown for Spring bedding, and for Winter flowering in the greenhouse and window garden they are incomparable. The Tulip is perfectly hardy and of easy culture, flowering as freely in the shade as in the sunshine, and producing as fine flowers in a confined town garden as in a more favored place. Double and Single Tulips, when associated together and planted in front of shrubs, maintain a longer display than if either is separately planted. In gardens where the flower beds are to be kept gay from the earliest day of Spring, plant between the lines of Tulips, Scilla Sibirica, Chionodoxas, Snowdrops or Crocus, as these flower first and are through when the Tulips come into bloom.

DOUBLE TULIPS

Double tulips have massive flowers of brilliant and varied colors, shades and markings, and being double, the flowers last much longer in bloom than single varieties, and in consequence, when singles and doubles are planted in conjunction, the "time of the Tulips" is greatly prolonged. Double Tulips are beautifully adapted for beds on the lawn, in the garden, and for mingling in clumps of half a dozen or more around the edges of shrubbery. Are robust growers and exceedingly effective.

Late Flowering or Show Tulips

Late Flowering Tulips

This group of Late-Flowering Garden Tulips generally is in full flush of bloom about "Decoration Day." They differ from the Early Single Tulips by their taller growth and later bloom. They are brilliant in the extreme for bedding purposes. The flowers are very large, symmetrically formed and their magnificent colors, with interesting and delicate featherings and markings, make a sight not soon to be forgotten, particularly when bedded out in quantity. They are very hardy and do well through all sorts of weather.

DARWIN TULIPS

Darwin Tulips belong to the late or May-flowering section, and are destined to be extensively grown for bedding or massing purposes. The flowers are very large, of symmetrical form, and are borne on tall strong stems, often two feet high. They by far surpass in colors and brilliancy anything before known in Tulips. They include almost every conceivable color and shade, from the daintiest blue to the darkest violet, from soft rose to the most brilliant red, and from light brown to what is believed to be the darkest black in the floral world.

Early Dawn. Tall, rosy lake, shaded blush.
Europe. Dwarf, dazzling rosy scarlet, white center.
Glow. Glowing vermilion, center blue, margined white.
Gustave Dore. Tall, bright rose, pure white center.

PARROT TULIPS

THREE-YEAR-OLD FLOWERING BULBS

These Tulips belong to the late-flowering garden varieties, which are generally in full bloom during the latter part of May. The Parrot Tulips have immense picturesque forms and brilliant showy colors. The petals have peculiarly feathered and fringed edges, and the shape of the flower, especially before it opens, resembles the neck of a parrot. They form extravagantly showy beds, an unlimited variety of colors making a very effective display in the flower garden.

Admiral de Constantinople. Large red flowers, tipped with orange.
Cramoisi Brilliant. Deep carmine, very handsome.
Lutea Major. Large bright yellow.
Gloriosa. Very large yellow flowers, with red stripes.
Markgraf Van Baden. Yellow, striped with scarlet and green.
Perfecta. Yellow and red striped.
Price, 75c. per doz., $5.00 per 100.

A collection of one of each of the above named six sorts for 50c., postpaid. Mixed Paris Tulips, per doz., 40c.; per 100, $3.00.

CROCUS

The Crocus is one of the earliest flowers of Spring, and occupies a prominent place in every garden. When planted as an edging, in triple lines of one or more colors, the effect is striking. No Spring display surpasses that of Crocus; the broad wavy bands of golden yellow, striped, purple, or of pure white, when they expand their blossoms in February and March, are incomparable. In lawns and pleasure parks, planted in the grass, the Crocus is extremely effective. They are easily planted indiscriminately in the turf with the aid of a dibber—after Fall rains have made the soil moist. The flowers and foliage are gone before the lawn needs mowing, so they do not interfere with the Summer beauty of the lawn. For several years past Crocus, Snowdrops, Daffodils, etc., have been planted in our parks and lawns, in wild places, woodland walks, etc., to the great delight of visitors and enhanced decoration of the parks. In one of the parks thousands of Crocus were used in the grass, and the effect was matchless. If ordered by mail, add 25 cents per 100 for postage. Larger lots sent by express, buyer paying transit.

Autumn Flowering Crocus (Colchicum)

Colchicum Autumnale. Very effective and handsome, hardy plants, the flowers of which come through the ground without leaves in the Fall, the leaves appearing the following Spring. These bulbs can also be grown in the Fall of the year in shallow bowls of water, or in pots of earth, when they will come into bloom in two weeks after planting, making a very pretty display at a time when blooming plants are very scarce. The flowers comprise many shades of white, purple, rose and striped.

The flowers are the largest of this class, very early and free-blooming, a grand cut flower; and eagerly sought after as one of the finest.

	Each	Doz.	100
Jumbo Bulbs	$0 10	$1 00	$7 00
Mammoth Bulbs	05	50	3 00

LEEDSI. Circe. Fine pure white, cup slightly tinted with light straw but changes to white. A very distinct and pretty variety. 25 cts. per doz.; $1.50 per 100.

MAXIMUS OR HALE'S BEATEN GOLD. One of the largest and most beautiful of this class. Very large flower, of rich, deep golden yellow. Remarkable for an elegantly twisted perianth. Trumpet deep golden, large, well flanged and deeply fluted. The darkest and richest yellow of all Daffodils. 8 cts. each; 75 cts. per doz.; $5.00 per 100.

Narcissus Sir Watkin

PRINCEPS. Very early. This is one of the most popular winter-flowering and forcing varieties grown. Flowers large, perianth sulphur, an immense rich yellow trumpet. 5 cts. each; 30 cts. per doz.; $2.00 per 100.

SIR WATKIN. "The Giant Chalice Flower," or "Big Welshman." A gigantic variety, immense long-stemmed flowers, sometimes measuring 5½ inches across, being the largest variety grown. Color a rich light yellow, with a very large dark cup, tinted with orange. (See cut.) 8 cts. each; 70 cts. per doz.; $2.50 per 100.

STELLA. One of the first in flower and wonderfully free-blooming. White star-shaped flowers, 3 inches across with bright yellow cups, very beautiful, and one of the most popular forcing and cutting varieties for the London flower market. 3 cts. each; 25 cts. per doz.; $1.50 per 100.

TRUMPET MAJOR. Flower large and almost of a uniform deep golden. Highly prized as an early forcing sort and largely planted for outside bedding. 5 cts. each; 30 cts. per doz.; $1.75 per 100.

VICTORIA. New; a bi-color famous for its large and durable flowers, which stand boldly erect; broad perianth of creamy white; large, broad, fluted trumpet of rich yellow; a strong grower with massive flowers. 10 cts. each; 75 cts. per doz.; $4.50 per 100.

MIXED LARGE TRUMPET NARCISSUS. Plant liberally of these for cutting purposes and naturalizing. 30 cts. per doz.; $1.50 per 100; $10.00 per 1000.

THE CHINESE SACRED OR ORIENTAL NARCISSUS

The "Shui Sin Far," or Water Fairy Flower, or Flower of the Gods, as it is called by the Celestials, is a variety of Narcissus bearing in lavish profusion chaste flowers of silvery white, with golden yellow cups. They are of exquisite beauty and entrancing perfume. The bulbs are grown by a method known only to themselves, whereby they attain great size and vitality, ensuring luxuriant growth and immense spikes of flowers. They do well in pots of earth, but are more novel and beautiful grown in shallow bowls of water, with enough of fancy pebbles to prevent them from toppling over when in bloom. A dozen bulbs started at intervals will give a succession of flowers throughout the Winter. Price, buyer paying transit, 10c. ea., $1.00 per doz., $7.50 per 100.

Mammoth Bulbs, bearing twice the number of flowering stems as the regular size, 15c. ea. $1.50 per doz.

Narcissus Paper White Grandiflora

A decided improvement over the ordinary Polyanthus Paper White Narcissus, producing a vigorous growth and a very large truss, bearing beautiful clusters of large, pure white flowers. This variety of Narcissus is grown in the southern part of France, and generally arrives here about August 15th or September 1st, and if planted about that date, they can be brought into bloom as early as Thanksgiving Day, and when several bulbs are planted together will keep in bloom longer than a month, providing they are kept in a cool place. Give the bulbs the same treatment as you would any other Narcissus for indoor culture, except when grown in shallow dishes as described below:

How to Grow Narcissus Paper White Grandiflora in Water

A very unique, simple and novel way to grow this variety of Narcissus is to place six or eight bulbs in a shallow glass or China bowl with water. Support the bulbs with pebbles or gravel as you would the Chinese Sacred Lily bulbs and you will have a beautiful and luxuriant display of elegantly perfumed flowers in a comparatively short time; in fact, inside of six weeks after planting if desired. After the plants have been set, place the bowls in a dark place until the roots have started, when you should bring them to the light. Keep the bowls filled with water and the bulbs will take care of themselves.

Price 5c. ea., 40c. per doz., $2.00 per 100.

Jumbo Bulbs 10c. ea., 75c. per doz., $3.50 per 100.

Narcissus Paper White Grandiflora

Can be grown in soil in pots or in pebbles and water. One of the most satisfactory for House Culture

Polyanthus Narcissus

DOUBLE NARCISSUS

INCOMPARABLE, fl. pl. "Butter and Eggs." Full double flowers of rich yellow, with orange nectary. Splendid variety for either forcing for Winter cut flowers or for open ground planting. Ea. 5c., per doz. 20c., per 100 $1.25.

ORANGE PHŒNIX. "Eggs and Bacon" Beautiful double white flowers, with orange nectary. Splendid for pot culture and cutting or garden decoration. Ea. 5c., per doz. 40c., per 100 $3.00.

SULPHUR (OR SILVER) PHŒNIX. "Codlins and Cream." Large creamy white flowers, sulphur nectary. Exquisite corsage flower, fine for growing in pots. Ea. 15c., per doz. $1.00, per 100 $7.50.

VON SION (Telamonius Plenus). The famous "Old Double Yellow Daffodil." Rich golden yellow perianth and trumpet. One of the best forcing sorts, immense quantities being gr wn for this purpose in Europe and America. Ea. 5c., per doz. 30c., per 100 $2.00.

"DOUBLE NOSE" VON SION. Extra large bulbs, capable of producing two and three flowers each. Ea. 7c., per doz. 60c., per 100 $4.00.

MIXED DOUBLE NARCISSUS. Plant liberally of these for cutting purposes or for naturalizing. Ea. 5c., per doz. 25c., per 100 $1.25.

POET'S NARCISSUS

Miniature Saucer-Shaped Cups

Poeticus. (Pheasant's Eye.) Pure white flowers with orange cup. Per doz. 15c., per 100 75c., per 1000 $6.00.

Poeticus Ornatus. Improved "Poeticus." Grand flower for cutting. Larger and more symmetrical than the old variety and considerably earlier. Pure white flowers, saffron cup, tinged rosy scarlet. Magnificent cut flower. Ea. 5c., per doz. 25c., per 100 $1.50.

Polyanthus Narcissus

The Polyanthus varieties of Narcissus are not only beautiful, but deliciously sweet-scented and of the easiest culture; very free-flowering, and suitable for window garden, conservatory or garden, continuing long in bloom. They bear tall spikes of bloom, bearing from six to twenty-four flowers each. The pure white petals and gold cups of some varieties, the yellow with deep orange cups of others, and the self whites and yellows render them great favorites. **If ordered by mail, add 20c. per dozen for postage.**

Gloriosus. Immense trusses of pure white, with primrose-colored cups; very early; splendid to force. Ea. 5c., per doz. 40c., per 100 $3.00.

Grand Soleil d'Or. Rich yellow, with reddish orange cup, a favorite bedding and cutting variety. Ea. 5c., per doz. 40c., per 100 $3.00.

Double Roman. Clusters of white flowers with double citron-colored cups. It is very early, and is grown largely for forcing. Ea. 5c., per doz. 30c., per 100 $1.50.

States General. Clusters of white flowers, with citron-colored cups, shading to white. Very early. Ea. 5c., per doz. 40c., per 100 $3.00.

White Pearl. Extra fine clusters of satiny white flowers, with citron-colored cups, profuse bloomer. Ea. 10c., per doz. 75c., per 100 $5.00.

Mixed, all colors. Each 5c., doz. 45c., 100 $2.00.

JONQUILS

Much prized for their charming golden and deliciously sweet-scented flowers, perfectly hardy, and flowering very early in the Spring; they are also admirably adapted for Winter forcing.

Rugulosus (The Giant Jonquil). Broadly imbricated perianth, with large, wrinkled cup, full yellow. Per doz. 25c., per 100 $1.25.

Single Jonquil. The well-known favorite, delicately scented and beautiful for forcing. Rich yellow, very fragrant. Per doz. 15c., per 100 75c.

Double Jonquil. Heads of small, but very double deep golden yellow flowers, powerfully scented and good for forcing. Ea. 5c., per. doz. 35c., per 100 $2.50.

Campernelle. Large six-lobed yellow flowers, four to six on a stem, fine for forcing, and the one generally preferred by florists. Per doz. 15c., per 100 $1.00.

CHIONODOXA,

or Glory of the Snow

Most charming Spring-flowering bulbs. They produce flower-spikes bearing ten to fifteen Scilla-like flowers. They are perfectly hardy, and will thrive in any good garden soil. Fine for pot culture for winter-blooming.

Luciliæ. Bright blue, with clear white center. Each, 2 cts.; per doz., 20 cts.; per 100, $1.25.

Sardensis. Very deep blue. Each, 3 cts.; per doz., 25 cts.; per 100, $1.25.

AMARYLLIS

All the varieties in this list are of the easiest culture; the great secret being to give them alternately a season of growth and one of rest. To do this well, the plants should be abundantly supplied with water and heat, and placed near the glass when they are coming into flower, and water should be withheld from them gradually when they have ceased flowering, when they should be laid away in a dry, cool place. The soil suitable for their culture is a rich loam, one-fourth part of well-rotted manure and a slight proportion of sand.

If ordered by mail, add 5 cts. each for postage.

CALLAS

A well-known plant, of easy culture; the only particular attention it requires is constant watering, and as warm a room as can be conveniently given it.

White Calla, or Lily of the Nile. Dry roots. Each, 15 cts.; per doz., $1.50.

Mammoth Bulbs. Each, 25 cts.; per doz., $2.75.

ALLIUM

The varieties we offer are among the most beautiful for pot culture or garden decoration. They are of the easiest culture.

Neapolitanum. Another excellent variety for Winter flowering, now extensively forced by florists for cut flowers, being of pure white, with green stamens, borne in large loose umbels; height, 15 to 18 inches. 6 for 10 cts.; per doz., 15 cts.; per 100, $1.00.

FREESIAS

Refracta Alba. Pure white. One of the most popular and charming bulbs for pot culture, flowering in the Winter in the conservatory or window garden. They force very easily, and can be had in bloom by Christmas if started in pots in the month of September. Plant half a dozen bulbs in a four-inch pot, in good rich soil, water well, and keep them at a temperature of 60 degrees. By having a number of pots in a cold frame they can be brought in at intervals, thereby having a succession of blooms through the Winter. Each, 3 cts.; per doz., 25 cts.; per 100, $1.25; per 1000, $10.00.

Jumbo Bulbs. Pure white. Per doz., 35 cts.; per 100, $2.50; per 1000, $20.00.

Freesia Fischer's Purity. Selected 1st size. Per doz. 75 cts.; per 100, $4.00; per 1000, $35.00.

Freesia Fischer's Purity. Mammoth bulbs. Per doz. $1.00; per 100, $6.00; per 1000, $50.00.

IXIAS

Very desirable for pots or for the open ground. They require for outdoor planting the same treatment as Dutch Hyacinths, except that they should be more heavily mulched.

If ordered by mail, add 5 cts. per doz. for postage.

Extra Choice Mixture of 25 named varieties. Each, 5 cts.; per doz., 25 cts.; per 100 $1.25.

THE BERMUDA "BUTTERCUP" OXALIS

An unrivaled Winter-Flowering pot plant of the easiest culture, succeeding with everybody.

This is one of the finest flowering plants for pot culture that we have ever seen; it is such a strong, luxuriant grower that one bulb will be sufficient for a 6 or 8 inch pot. Place in a dark, cool position for several days to root thoroughly, and remove to a sunny situation in the window or conservatory in a temperature of about 60 degrees Fahr., and the great profusion of bloom produced in uninterrupted abundance for weeks will astonish and delight you. The flowers are of the purest bright buttercup-yellow. Well-grown plants have produced as high as seventy flower stems at one time, and over 1,000 flowers in one season. Properly treated, the plant will flower in six weeks from the time the bulbs are planted. Each, 3 cts.; per doz., 30 cts.

Freesia Fischer's Purity

SPARAXIS

They were formerly included in the genus Ixia, and bear a close resemblance to them; the main points of difference being that the Sparaxis are of more compact habit of growth, the flowers more bold, and somewhat larger and the flower spikes are not more than half as high, rarely growing more than six inches. Especially desirable for the window curtain.

If ordered by mail, add 5 cts. per doz. for postage.

Splendid Mixed Varieties. Per doz., 20 cts.; per 100, $1.25.

Snowdrops

TRILLIUM

Grandiflorum. (Great American Wood Lily.) This is one of the most beautiful American plants, perfectly hardy, growing and flowering profusely in partially shady nooks about the lawn, under trees, etc. The flowers are large, of the finest white, changing in a few days to soft rose; if grown several in a pot, it makes one of the best white Winter flowers. Each, 5 cts.; per doz., 50 cts.; per 100, $3.00.

TRITONIA

Exceedingly bright and free blooming bulbous plants, highly valuable for both garden and pot culture. A dozen roots in a 10-inch pot will, in the Autumn, make a beautiful display. The bulbs should be grown in pots, in a cold frame, during Winter, and they can either be brought into the conservatory toward Spring for blooming or the bulbs can be kept dormant and planted out in May, like Gladioli, and then be lifted in the Autumn for Winter blooming.

Mixed Colors. 3 for 10 cts.; per doz., 30 cts.; per 100, $2.00.

Ornithogalum Arabicum

(Star of Bethlehem)

Very desirable for pot culture in the window garden. The flowers are large, pure white, with a black center, borne on a tall spike. In pots they should be treated in the same manner as the Hyacinth. At 100 rate buyer pays transit. Each, 10 cts.; per doz., 40 cts.; per 100, $2.50.

SNOWDROPS

These elegant little flowers, the first to open in Spring, should be found in every garden, not only because they are the earliest Spring flowers, but because they are the loveliest. The Snowdrop thrives in almost any situation or soil, and should be planted as early in the Autumn as possible, as they suffer much if left long out of the ground.

STERNBERGIA

S. Lutea. Large, pure yellow. Crocus-like flowers, which are produced with the leaves during late Autumn. This is supposed by some writers to be the true Lily of Scriptures, as it grows abundantly in the vales around Palestine, etc. 3 for 10 cts.; per doz., 30 cts.; per 100, $2.00.

SCILLAS

Most charming and desirable Spring flowering bulbs. The flowers resemble the Hyacinth, but are much smaller; their colors are more intense, and they come into flower much earlier. As an edging, or for filling small beds, if planted sufficiently thick, the effect is matchless. Treat in the same manner as Hyacinths for outdoor culture, or for pots in the window garden.
